CORPORATE SOCIAL AND ECO RESPONSIBILITY

Finding the right balance between people's well-being and the health of our planet is one of the defining challenges of our time. We believe every company carries a responsibility to act with care and foresight. At Bentley, we aim to build a sustainable business that creates lasting value, for our employees, our partners and the environment. Economic success should never come at the expense of people or the planet; it should serve them both.

We aim to use sustainable materials in the development of our products and to minimise the use of harmful packaging. Throughout our supply chain, we take steps to reduce our environmental footprint, such as sourcing materials closer to home. We carefully select partners who share our commitment to fair and safe working conditions and who meet or align with the standards of the Business Social Compliance Initiative (BSCI). In our business operations, we strive to minimise our environmental impact and, when necessary, offset the footprint we leave behind.

In addition to our day-to-day business decisions, we are proud partners of Trees for All and Ronald McDonald House Charities and support them 100% for what they stand for and what they have achieved.

Our commitment is reflected in our EcoVadis Platinum rating for sustainability and ISO 9001 certification for quality management, underlining our dedication to responsible and fair business practices.

MANUFACTURING

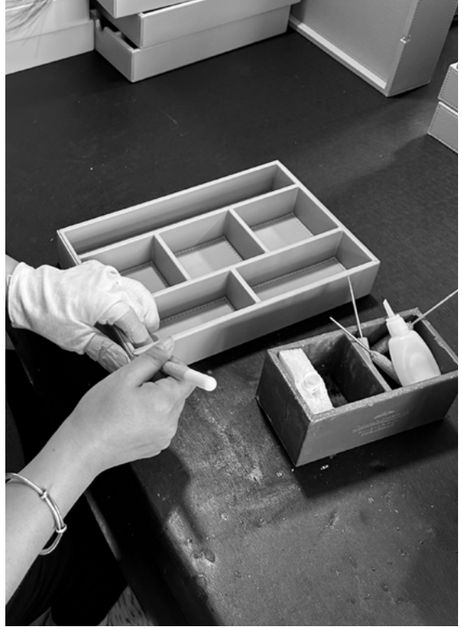
OUR DEDICATED PARTNERS

Our manufacturers are carefully selected for their reliability, craftsmanship and shared values. Many of our products are made by hand, shaped by expertise that has been refined over generations.

We work only with partners who meet or align with the standards of the Business Social Compliance Initiative (BSCI). We ensure that our manufacturers adhere to the same principles: fair working conditions, respect for people and responsible use of resources.

Each collaboration is built on trust and transparency, ensuring that every Bentley product carries the same commitment to quality, ethics and care.

BSCI
Business Social Compliance Initiative



Some of our products are made closer to home in Europe, others are crafted with skill and dedication in the Far East. Wherever they are made, each item reflects the same commitment to quality and attention to detail, always with people and the planet in mind.

WHAT WE OFFER

CUSTOM & DESIGN

Every hotel tells its own story, shaped by atmosphere, detail and design. With our customised solutions, we translate that story into the small details that leave a lasting impression. From welcome trays and leatherette collections to luggage racks in refined finishes, every product can be tailored in colour, size, material and branding to suit your hotel's identity.

Beyond customisation, we also develop products entirely from scratch. Working with your mood boards, mock-up rooms or room renders, we create tailored hotel supplies that reflect the character of your hotel and bring your vision to life.

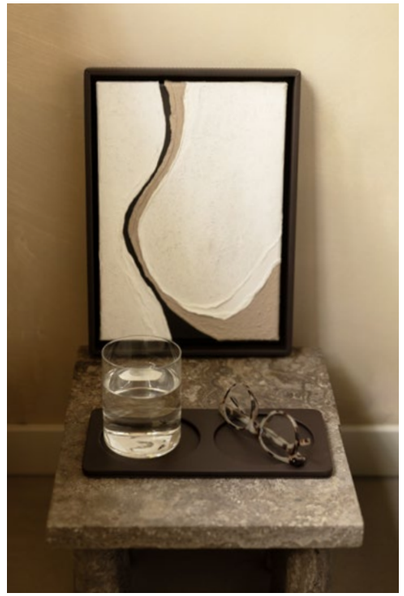
TRANSFORMING OUR ESSENTIALS INTO STATEMENTS

Beyond their intended purpose, our products offer endless opportunities to add character to any space. A leatherette tray can transform into a frame for arts, while the Ibu tray transforms into an elegant base for a glass dome with softly glowing candles. Even a hanger can become a design statement when displayed on the wall rather than hidden in the wardrobe. The Nevis hair dryer box lends itself perfectly as both a practical storage solution and a stylish presentation box, adding a refined touch to any hotel room.



By reimagining these essentials, hotels create subtle touches that elevate both functionality and design, gestures that leave a refined and lasting impression.

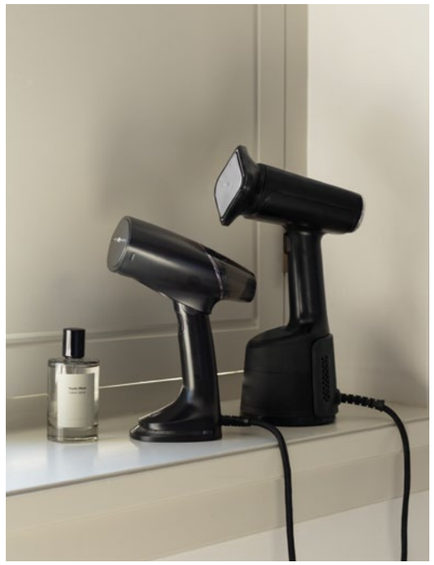
A functional wardrobe is essential in every hotel room. It allows hotel guests to store their clothing and shoes, while also providing an opportunity for the hotel to offer additional services that enhance the guest experience. Our ironing solutions are specifically designed to save space and can be easily integrated into any wardrobe.



Ironing solutions

We offer various ironing systems that include a board, an organiser and an iron. Depending on your preferences, you can mix and match these components to create an in-room ironing solution that suits your needs. Thanks to our specially developed organisers, all sets are space-saving and user-friendly.

Smart design

Smart design is often found in the details that make everyday use easier. That is exactly what we had in mind when developing our two latest wooden luggage racks, Bari and Como. Both combine a refined design with FSC-certified beech wood, but it is what happens when they are not in use that makes them particularly practical. Folded away, they remain free-standing, making them easy to store neatly in a wardrobe or storage area, without having to lean them against a wall.

What defines a box spring?
A box spring combines a spring base with a spring mattress to create balanced comfort and reliable support. The pocketed springs move independently, gently adapting to the body and relieving pressure. Their open structure allows natural airflow, helping to maintain a comfortable sleeping temperature throughout the night.

This box spring bed
can also be customised in
other textile colours on request.
